EDUCATION

M.Sc. Informatics ~ Aug, 2024 - July, 2026 IIC, South Campus, Delhi University CGPA - 8.46

B.Sc. (H) Electronics ~ Oct, 2021 - July, 2024 Atma Ram Sanatan Dharma College CGPA - 8.32

Diploma in Ethical Hacking ~ Jan, 2024 - Aug, 2024 Global Defensive Security, Bhopal Remote

Advance Certification Course ~ Aug, 2024 - Present in Information Security 6 Months

IGNOU, Noida Regional Centre

Intermediate (12th) ~ April, 2020 - July, 2021
Ramjas International School, RKP 93%

COURSEWORK

- Web & Mobile Dev
- Operating Systems
- Cyber Security
- IoT and Cloud
- Machine Learning
- Computer Networks
- Data Structures
- Software Engg.
- Database Systems
- . Computer Architecture

AWARDS

- India Book of Records Holder'2024 Maximum Virtual and Remote internships completed.
- Veer Chandra Singh Garhwali Vishist Uplabdhi Sammaan - 2024, Garhwal Hiteshni Sabha.
- 3 Times Meritorious Student Award, Department of Electronics, ARSD College, Delhi University.
- Veer Chandra Singh Garhwali Medhavi Chhatra Sammaan - 2022 in class 12th.

CO-CURRICULAR

- Open Source Contributor: GSSoC'25, Social Summer of Code (SSoC), Open Summer of Code (OSoC) and Open Source Connect India.
- Placement Coordinator at Placement Cell, Institute of Informatics and Communication, DU.
- Summer Training Ethical Hacking and Penetration Testing, Techgyan Technologies and Abhyuday, IIT Bombay.
- Vice President ElectroSpark, Society of the Department of Electronics, ARSD College.
- Research Paper/Publications: "Smart Devices and IoT in Industrial Applications", 2nd International Conference (RAFM), ARSD College.
- Cleared Prelims and Mains rounds of the Software Development Engineer (SDE) -Placement Eligibility Test (PET), out of 10,000+ participants, with a rank of 154, conducted by CloudXLab Inc. | IIT Roorkee.

WORK EXPERIENCE

▶ ReactJs Intern (Remote)

Celebal Technologies Pvt. Ltd.

June, 2025 - August, 2025

- Built a complete eCommerce web application with product listings, search filters, shopping cart, checkout, and user authentication. Worked with RESTful APIs and JSON to ensure real-time UI updates, reusability, and maintainability.
- Technologies Used: ReactJS, Redux, Context API, Axios, JS, HTML, CSS, Tailwind CSS, MySQL.

Cyber Security & VAPT Intern

(Onsite)

14C, Ministry of Home Affairs

May, 2025 - July, 2025

- Conducted OSINT investigations and monitored surface and dark web sources using tools like Maltego, Shodan, TOR to gather actionable intelligence, track threat actors, identify exposed credentials, and analyze potential security risks.
- Tools Used: Maltego, Shodan, the Harvester, TOR, Nmap, Nessus, Burp Suite, Metasploit, Wireshark.

▶ Full Stack Developer

(Remote)

Coding Bits

Nov, 2024 - Feb, 2025

- Integrated Stripe payment gateway into the Coding Bits website, handling both front-end and backend integration to ensure smooth payment processing. Assisted in enhancing and maintaining the Coding Bits Website, improving user experience and functionality through various optimizations.
- Technologies Used: MERN Stack, Firebase, MySQL, PHP, Git, GitHub, Next.js, Stripe API and Figma.

CERTIFICATIONS

- Full Stack Web Development | Java Full Stack Pantech eLearning | IETE
- Cybersecurity Certifications: Google Cybersecurity Professional, Certified Network Professional (CNSP), Certified Practical Penetration Tester (CPPT), Junior Web Penetration Tester (JWPT), Certified Linux File System Professional, Cybersecurity Foundation Professional (CSFP).
- Google AI Essentials: Artificial Intelligence Fundamentals Coursera
- GeeksforGeeks API Bootcamp: Summer Edition Postman | GFG

TECH STACK / SKILLS

- Programming Languages: Python, C/C++, Bash, Golang, Java, JS, PHP, SQL, TypeScript and Kotlin.
- Technologies/Frameworks: HTML, CSS, Django, Flask, Bootstrap, WordPress, JQuery, ReactJs, Express, MongoDB, NodeJs, NextJs, and Angular.
- Databases/Hosting: MySQL, MongoDB, Firebase, Supabase, Prisma, PostgreSQL, Heroku, AWS.
- Developer Tools: VS Code, Atom, Canva, IntelliJIdea, PyCharm, GitHub, Git, Gitlab, Figma, Arduino.
 Soft Skills: Problem-solving, Leadership, Teamwork, Adaptability and Time Management.

PERSONAL PROJECTS

- 2. Carbonwise: Full Stack Carbon Tracker | Nextjs, Typescript, Tailwind CSS, Shadon, Supabase, Nodejs
- CarbonWise is designed to help individuals track, analyze, and reduce their carbon footprint through intelligent activity logging, streak tracking, goal setting, advanced analytics, community engagement.
- 1. Full Stack Uber Clone Application | MERN Stack, Tailwind CSS, Google Maps API, JWT, Socket.io
- It allows users to register, authenticate, book rides, track real-time locations, and manage profiles,
 while captains can manage their rides with features like real-time location tracking and Google Maps.
- 3. Natural Language Generation (NLP) Model | Python, Transformers (Hugging Face), GPT-2, Tkinter,
- An interactive application that leverages a pre-trained language model (GPT-2) to generate human-like text based on user prompts. It can produce texts, stories, reports, and dialogues.

CODING PLATFORMS

- <u>Leetcode</u> Solved 740+ Questions on Leetcode (Max: 1596). Received 365 days coding badge.
- CodeChef Solved 1200+ Questions on Codechef (Max: 1045). Received diamond badge (400 days).
- GeeksforGeeks Solved 300+ Questions. University Rank 1 with an overall 300+ days streak.
- InterviewBit Solved 480+ Questions. Global Rank 250 with an overall 300+ days streak.
